Leadership: Practice your gift of leader. The same way you memorize ritualistic work; until you are excellent at it. You must rehearse your leadership skills to excellence. Please do not wait until our meeting to develop your leadership skills. No! It begins at the First Pillar; you must take advantage of exemplifying confidence in giving instructions and have people buy into your ability to lead them into unknown territory.

It's your responsibility to learn what you are suppose to learn in this season; for you are not going to remain there forever. Effective leaders are built one Pillar at a time. As you progress within the Tabernacle your leadership skills must increase. It has been written, "If you take a person who has the ability to lead 1,000 people and they are the leader of 100; it has been written 900 will come." The inverse is the same, "If you take a person who has the ability to lead 100 people and they are the leader of 1,000; it has been written 900 will go!"

This has much more to do with your capacity of leadership and out of box thinking you have as opposed to anything else. It is your responsibility to list or identify the changes you plan to implement. If you are not planning changes you are not leading. If you have difficulty listing things you would change, start with the things you complain about.

Change before you have to. Question?? What will it take to change before you have to? We all know good intentions won't cause us to change. As your advance in Hannibal Tabernacle your achievements will be recognized as your light burns brighter.

However it takes a crisis, a tragedy, a pain so great that change is actually forced upon us! Why? By then it's to late. What if you could find the strength to change before the pain? You know if you have applied yourself to prepare to move within the Tabernacle.

No more excuses, no more good intentions, its time to change to advance to greater heights in masonry and appreciate it on your terms. If we always do what we always did, we WILL continue to get the same results. Dare to be different.

Activities : On Sunday, February 25, 2018, I attended the 2018 Black History Program at The Prince Hall Masonic Temple, 2531 Germantown Street, Dayton , Ohio. The Master and Mistress of Ceremonies were Companion Jordan Young Rt. Valiant Grand Deputy Councilor, Grand Chapter, Order of Pythagorans and Princess Anietra Robinson, Grand Royal Queen, Girls Assembly.

The invocation was given by Companion Chris Moody, Master Councilor, Eleven Letters Chapter. I commend these young people for the leadership skills they exemplified in putting this program together; while recognizing the very foundation of their being.
